

# Career services

The Career Services Center at Constructor University strives to help you find your inner passion and vocation. Together, we will help you achieve your career goals, by providing you with individual guidance. As your source for interview preparation, professional skills training, and a variety of job and internship opportunities, we offer you tailor-made career support.

**Prepare for the  
global job market!**

## > Counseling

### **Career Orientation**

Get support and guidance on your future career strategy with individual appointments.

### **Application Check**

Receive individual feedback on your application documents tailored for any position.

### **Mock Interviews**

Simulate a real job interview, improve your communication skills, gain more confidence, and increase your chances of success.

## > Training

### **Career skills**

Prepare yourself for the working life – train your soft skills in information sessions, and seminars on diverse career and personal development topics – learn more about the labor market and how to contact future employers.

### **Online tutorials & CV tool**

Use our numerous resources and create your CV meeting the requirements of a global job market.

## > Experience

### **Internship program**

Participate in company internships, or major-related placements. This is your opportunity to apply new academic concepts and gain practical experience.

### **Job portal**

Take a look in our online portal, which displays a variety of internship and job postings – from German and international companies, to research institutions and non-profit organizations. There are opportunities available for all fields of interest.

## > Networking

### **Various employer career events**

Get in touch directly with companies and institutions at various events on and off campus, such as workshops and tech talks with global players like Google, Microsoft, Facebook or Daimler.

### **Annual career fair**

Excellent opportunities for all students to search for internships and job entry positions – meet your future employer on campus.

### **Alumni community**

Benefit from contacts and events with graduates and apply for our Mentoring Program.
